

# ANGEL AGRICULTURE RO SYSTEMS

Commercial Agriculture Division • Stainless Steel • Siemens Automation

- 9" Siemens touchscreen controller
- Built-in sediment tank
- Stainless steel skid
- Tank-level control (dual floats)
- Industrial multistage pump
- Permeate flush cycle
- Antiscalant injection kit (included)
- Low-pressure protection + restart
- Built-in oxidation injection port
- High-pressure tank protection
- Dual GAC tanks (pre-filled)
- Commercial wiring harness
- Fully plumbed, plug-and-play

Model	Flow Rate	Price	Shared Pump Notes
ROS5 & ROS10 share the same pump			
ROS5	5,000 GPD	\$ 13,200	Shared Pump Notes: • Same pump & motor assembly • Same pressure capability • Same pretreatment package • Same automation • Difference is membrane array size only
ROS10	10,000 GPD	\$ 17,825	
ROS15 & ROS20 share the same pump			
ROS15	15,000 GPD	\$24,000	Shared Pump Notes: • Larger industrial pump • Higher flow & pressure stability • Supports larger membrane arrays • Same automation & pretreatment
ROS20	20,000 GPD	\$ 28,800
